*Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-13, 53-62, drawn to a system of call records, classified in class 379, subclass 266.1.
  - II. Claims 14-22, 63-71, drawn to a database or file accessing by query formulation, input preparation, or translation, classified in class 707, subclass 4.
  - III. Claims 23-35, 72-80, drawn to prioritized data routing, classified in class 709, subclass 240.
  - IV. Claims 36-42, 81-87, drawn to conferencing by operator control, classified in class 379, subclass 203.01.
  - V. Claims 43-52, 88-97, drawn to call traffic statistical recording or monitoring, classified in class 379, subclass 134.
2. Inventions I, II, III, IV, V are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because each invention group does not require the particulars of the other invention

groups. The subcombination has separate utility, such as, claimed limitation of "statistics" in group V.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

3. A telephone call was made to Mr. Alex Yip on 1-29-04 to request an oral election to the above restriction requirement, but did not result in an election being made.

4. Applicant is advised that the reply to this requirement to be completed must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Any inquiry concerning this application and office action should be directed to the examiner Ming Chow whose telephone number is (703) 305-4817.
